# Overview:

Welcome to this ***VERY special new workbook*** and concept centered on debuting as the authentic, iconic, attention magnetizing STAR or STARLET version of yourself that has PUBLIC influence in alignment with your greatest desires, truth and identity. Really, **your AVATAR SELF embodied & seen.**

The in-self marketing and branding value alone could even be worth \$10,000 to you in getting this clarity; especially if you are in a business where YOU are the face of it and people are trusting and making intuitive decisions on YOU, what they feel intuitively and how you are showing up if you are the real deal or not.

Consider that (on a timeline a few steps away) there is a fully attuned, embodied and optimized version of you that is READY to be SEEN and in divine public service, having scalable INFLUENCE in alignment with the scope of your soul's massive dharma....The RECOGNIZED version of yourself that keeps scaling your own following.

And that this **authentic VERSION of your truest self; your avatar self EMBODIED and SEEN** is actually now attainable and reachable after the years you have put into cultivating yourself and preparing from something greater; even to change industries but working with and through other people and having profound impact on their lives.

Imagine getting clarity on THAT magical version of you in a fun to do, soul discovery-level, yet practical workbook with real world shifts and clarity!

**(Your Star/let Codex IS that key code that unlocks and reveals this version of you).** That's what this workbook is for but for now I'll continue with the overview.

I'll get to the what exactly the Star/Starlet Codex is specifically; but it includes the specific and unique signature essence and behavioral qualities (*like archetypes and their exact BALANCE and Light and Dark that is the illuminated version of YOU best and clearly represented socially and visually*); these public-friendly qualities that signal the 'brand' of you so clearly that it cuts through the clutter and people are compelled to engage with (and hire) you.

On my own new [Instagram channel](#), I talk about how **charisma or allure is like beauty sorcery**; it exponentiates FELT influence beyond just the visible spectrum of your looks. That's what this STAR version of yourself has; CHARISMA or feminine ALLURE which allows more organic and effective response and scalability at any level.

Consider that you don't have to be famous to have influence like a star. Fame is a separate variable from charisma and even the concept of star now; especially with how Instagram and social media has opened things up for you to grow your OWN following like a star or starlet. Really now; the 'brand' of you and how your image is out there is of central importance...and now we can really optimize that for ORGANIC influence.

Think of it; what if you really could be a Star or Starlet (with influence like a Star at any scale) but from full soul and spiritual alignment and embodiment where your soul tribe and followers are compelled to follow you (like a star)?

So that it's YOU - but it's the BEST version of yourself that is having SOUL SIGNATURE impact on other lives!

Are you called to that? Are you READY for it? Because we've got some (fun) work to do!

Think of the impact you truly DESIRE to have and how it's related to OTHERS and you HAVING greater influence (and on a larger scale)...of how others are responding to you and your magic, recognizing you and your gifts and how much satisfaction it brings to you soulfully, spiritually and financially to be HAVING aligned IMPACT that is uniquely yours with others out in the world.

(Is there really any other way?)

So ; if you're up for it...we're going to get CLARITY on your exact Star/let Codex.

BTW; This 'workbook' includes this usable PDF to inspire writing plus any supplemental audio/s in a contemplative process for YOU to go through on your own.

Look for the hard-coded blog link at the bottom in case the supplemental audio or 2 as part of this overall 'workbook' are not available on release day. I will also announce on the email list.

A few pages down, I'm going to reveal exactly what your Star/let Codex is (format-wise) and then going through this workbook, you're going to get clarity on YOUR signature Star/let Codex that sets you uniquely apart from anyone else in the world. **This is BRANDING GOLD. So simple, yet POWERFUL.**

FROM THAT alignment you may discover that like me, you are the only one in the world with a very specific type of coding that EASILY cuts through any other clutter and differentiates you in the attention-based social economy.

AND you're going to have more influence as your AUTHENTIC self especially to intuitive clients anyways (who can now more easily FEEL your truth emanating from you because of your ignited alignment). It's kinda like getting the key code just right opens all of the doors. Let's do that shall we?

This signature soul-star version of yourself (and your upcoming allure) that is OK WITH and LOVES actually having greater social IMPACT in magical ways where your own shadows, doubts, insecurities and 'what ifs' are just overcome or GONE because you're LIVING IT with no regrets...even having CULTURAL impact with your ascension codes.

Knowing that you're actively making a difference touching other people's lives on a deep level and how refer you and how your own circle of influence keeps expanding with amazing people, resources and rich opportunities.

Even if it 'seems' far away, I think that this 'Star/let' version of yourself is far, far closer than you may think and I'm going to help you with that.

If you're reading this, like me - **you are meant to be SEEN, recognized and have influence on a MUCH grander stage in alignment and influence** with the larger currents themselves socially and culturally but with YOUR unique codes and voice...really living a heaven on earth legacy that is so rich WITH OTHER SOULS as your own following grows. At the time of this release, 2026 is your year to BREAKTHROUGH.

So WHAT IS THIS Star or Starlet Codex (that is UNIQUELY yours) that gives you that foundational alignment, EMBODIMENT and CONFIDENCE to be out there?

**Your Star/let Codex is the IDENTITY level version of your more socially active public-service self that is YOU, ignited on all levels** of consciousness and self in divine SERVICE, recognition and living success. Even if it's just about being seen in more of your fully expressed BEAUTY (as a high value truth of its OWN), it's this greater current-circulation impact-igniting version of your true self (that doesn't have to have any of the shadows of fame).

Your lived STAR/LET version of self (within and without) IS the divine avatar identity of your soul (and its signature Spirit-Essence qualities) embodied to have more influence from your light body; it's literally like a star gives felt influence outside of the visible spectrum of light. The FULLEST, more powerful, more influential and felt version of yourself and your soul without compromise.

**There is a divinely custom, signature CODEX that IGNITES this POWERFUL, media-friendly photogenic, appealing version of you** and

getting that specific order and elements of your codex correct can make all the difference and even do MIRACLES from here forward. *All the marketing gimmicks in the world may never do when it comes down to YOU yourself in social media attention age economy.*

**This is about YOU claiming your worthiness and power to be SEEN** on a larger level and fully live out your greater purpose WITH influence on others (in this attention age economy); even if you've been held back for years.

And yes; this may mean clearing up your own insecurities, unworthiness, ***fugly duckling syndrome*** and issues around having that much ATTENTION and influence itself. It may also mean clearing up identity levels resistances around being a form (your form) of spiritual influencer. Heck; this may be the MOST central thing in your life like it has been for me (and still is).

Imagine....Where people ARE DRAWN TO YOU organically LIKE a star/starlet without having to be famous by traditional channels...and where your essence and sovereignty is HONORED, preserved and cultivated!

Where YOUR codes and divine transmission get out to the world impacting others; where YOU are getting greater attention instead of only shadow stars and clone-puppets of the old world order taking up all the airwaves.

Isn't it YOUR TIME and isn't that time NOW? To truly prepare and DEBUT (or re-debut) but as the STAR self having that influence and living it like you're meant to on the grander stage?

Fortunately; your Star/let version of self doesn't HAVE the issues, blocks or resistances to BEING SEEN and living it...your CODEX holds those keys and access.

*(All of this is CENTRAL if you're a spirit-based entrepreneur by the way).*

This Star/let Codex workbook will help you to find the greatest leverage of all; at an IDENTITY level for miraculously fast change to start living IN the embodiment of your gifts, beauty, magic and soul service on a larger scale...starting as soon as possible!

## **"But what exactly IS my Star/let Codex Rion?"**

Ok here we go...

Your Star/Starlet Codex (which we could also call your 'debut codex') **is the exact elemental, gift, siddhic, archetypal, soul value/service + Light and Dark balance of codes that solidifies, ELECTRIFIES,** amplifies and IGNITES your FULLEST soul and spirit aligned and embodied iconic identity and service to others.

It is the unique SOUL-STAR constellation of the TRUE YOU, (sourced properly) that is MEANT to be psycho-spiritually activating to you, your soul tribe and the collective. This is SIGNATURE work.

Sure; there may be other EMBODIMENT work to do with your Star/let codex ([which I can help directly with](#)), but just having the clarity alone can clear up YEARS of confusion, self-doubt, insecurities and get you on track FAST (*while leveraging all of your past experience, preparation and gifts no matter what age you are*).

For example; it's safe to share here and now that I am simply;

**THE Muse Magician Rockstar**. That's the short-form (not long-string) version of **MY Star codex** at an identity and branding level to the public. That SIMPLE clarity separates me apart from anyone else and gives me the authority to LEAD the new (eventual) billion dollar Allure industry which I am essentially co-creating with Muse (in Divine Union).

**Another example of a Starlet codex would be like the** *'Dark Vixen of Erotic Liberation & Immortal Ecstasy'*

It has an intelligent design to it all. I have a few different authentic 'character' roles like 1 for hosting [Mystical Grail](#) ; there, I'm in more of my Mystic-Mage identity and visuals; however, I'm aware of that as an authentic character role and he holds less of my integrated true DARK self.

**You should have a primary long-string and short-form Star/let codex for yourself at an identity and branding level** to have CLARITY and maximal scalable impact on your own soul tribe.

For me;

The Muse Magician Rockstar is Rion Kati however; my soul aligned, embodied and expressed (fullest, truest self INTEGRATED with Light and Dark) PUBLIC identity for my mainstream brand of Sexy Chi and the clarity of who I'm meant to influence (beauty influencers, celebrity, Beauty and performance arts industries, conscious erosy women, etc.). It took years of DARK reclamation to INTEGRATE that and have clarity.

The world's only MUSE Magician Rockstar that is. That's an example of how clear and powerful the Star Codex can be...then I just have to LIVE it. It centers and aligns the behavior, image, self-awareness, transmission, what I can do and how I can do things; all of it is pre-aligned but from being sourced in my codes, soul, values, tribe alignment, spiritual sourcing and truth. **The Rockstar is especially the ATTENTION receiving/generating** encoded aspect of it, but it's the combination that is especially magic and you're going to have YOURS.

Consider that it's the (Rock)STAR that was the WEAKEST of my Star Codex...you also may have STRENGTHS that help to clarify you and your brand at an archetypal level, but you may also have a 'missing' or undeveloped archetype that is the missing power piece that will set you into wild, aligned attention and recognition.

**Let's discover that together shall we?** I may or may not give you further additional tips in this workbook but for sure if we work together you'll be getting power support directly) but I'm doing things like listening to rock'n roll dancing to let my Dark Eros and Outlaw (as sub-components of Rockstar) self breathe and integrate during sessions.

There are numerous things you can do to embody once you have CLARITY on your unique CODEX. One of the MAIN things is simply to get [archetype embodiment activations as well as kundalini and dan tien activations](#) to have a more powerful core energy body to run greater archetypal power and beauty codes and the consciousness with it (of your codex). That's where the [AvaStar Makeover comes in](#), but I'll mention that later.

So...This Star Codex in a makeover format is also where the [Gene Key gifts and siddhis as well as your Human Design and charisma/allure](#) (felt influence) all pull together with your past preparation and spiritual work to be in GREATER RECOGNITION and soul satisfying service and attention reception.

**People want to feel the REAL YOU** without posing and being able to authentic hold, embody and circulate archetypal and siddhic essence is simply the more advanced TRUE STAR and STARLET power of social influence. It's more than just your visuals, your content or 'niche' and algorithm hacking; this is about a core identity, FEELABLE version of you that people are COMPELLED and inspired by..where you have TRANSMISSION level of alchemical flow because you are so ALIGNED and embodied in YOUR unique signature identity.

For more Beauty and Charisma codes, you can follow me on Instagram btw @ <https://instagram.com/rion.kati>

I've been helping men and women with [archetype embodiment and allure transformation makeovers for YEARS](#), but it's this STAR/STARLET concept that pulls together the BEST version of you to relate and influence on a larger, PUBLIC SCALE. And it's a very specific, signature codex to you and your soul. (Imagine knowing that and the value of it and how you'll stand out from the clutter?!)

**This 'My Star/let Codex' workbook** is going to be a God or Goddess-send for you if NOW is the time to actively prepare for your true self DEBUT to the world (or re-debut) yourself to stand out in YOUR unique beauty, power and codes. Imagine that; CLARITY on your DIVINE AVATAR SELF embodied and lit in multi-dimensional service and impact professionally and socially.

Hustle-bro marketers are not going to be able to do the spiritually aligned and attuned, authentic SOUL LEVEL IDENTITY WORK that it takes for the 'brand' of you to interface, mingle and influence the collective with your enchantment. They also don't know how to work with archetypal power and beauty to paint and tone your felt image (*which is the HIGH level organic marketing sorcery*).

Yes; this workbook could be worth 10's of \$1000s of dollars for those who put it to use. We're really talking about the BRAND of you (AUTHENTICALLY) and how that interfaces and is positioned with and for your ideal soul tribe and followers.

This process could do more **organic marketing magic** than any kind of algorithmic funnel optimization (blah blah) could ever do for those of us who

know that ALIGNMENT, authenticity and divine service with integrity matter...where you, your face and FELT PRESENCE matter to a growing market and prosumer-space of more psychic and aware people who can sniff out B.S. and posing.

Since I work directly with Goddess essences and highly intuitive women, I absolutely MUST be in alignment and clarity with who I am and what I do including resolved value conflicts around sexuality, sexiness, celebrity and all with pristine service integrity. I embody those qualities even though I have a lot of Dark. ALL of this is covered in getting the Star Codex properly aligned and set.

WHO you are and effectively communicating it where people FEEL the real you is going to be what sells the most (esp. as counter-act to all of the inorganic AI and 'content' or 'information' that is now available out there) and yet divine masculine/feminine and siddhic qualities (true power and beauty) are now accessible for YOU to access beyond your 'personality' or knowledge in any given market. You don't have to COMPETE with AI either...people are valuing real CONNECTION so it's even more important that you stand out and are able to provide a unique erospheric brand experience with integrity.

By working on your identity consciousness (and the brand of you) DIRECTLY and this spiritually aligned and activated 'brand' of YOU; we're able to save YEARS even decades off of the process of attuning you into your FULLEST heaven on earth avatar or star (avastar) **self that RELISHES being seen, recognized and is in divine service and impact.**

No longer are 'stars' just limited to a handful of celebrities and their shadows and our projections of them as '*out there*'; **isn't it time for YOU to claim,**

**embody and live out the SOUL star or starlet you were always meant to be?**

*(Especially with the dynamics in the world today and how social media has us all so connected; where we can BE our own stars and starlets)*

Will you choose to get clarity on and then EMBODY the dream, movie-star version of yourself that you've always desired? (You're going to love the practical examples coming up that get you more an idea of what's possible)

What are your soul value areas and desires of divine service? We're going to go into that as well...what are the archetypes that you embody and represent the most in your idealized TRUE self identity? ***What ARE the gift and siddhic qualities?***

We've not only got a mid-size Caprice, we've also got some POWERFUL leverage with the Star Codex that can transform your life into ALIGNED success and recognition from HERE forward. ***Imagine where you can be 5 years from now LIVING as your ICONIC self!?***

Isn't it time for YOUR codes to have influence on that larger scale you've been preparing for as the AUTHENTIC, highest embodied and expressed version of your avatar self *(including the multi-dimensional light of your image and felt impact)?*

I think you know that this is for you and there have been some things holding you back from that greater POWER and beauty embodiment and expression at an identity level (including with being seen and fears of PUBLIC SPEAKING).

Well; your Star Codex resolves that so you can start living FROM that power and alignment NOW having more organic response and scalable impact immediately with your soul tribe and circles. The old version of me and his ego isn't ready for the GRANDIOSITY of this dharma but KNOWING that I am the Muse Magician; gives me the CONFIDENCE to step into that role and identity. (Professional actors give themselves that type and level of permission; shouldn't YOU for YOUR dreams?!)

Although we're not exploring the RICH world of celebrity examples of archetypes (ie. The 'Prince of Darkness' with Ozzy Osbourne and Mr. Mom with Michael Keaton); you might even want to consider a name change OFF of this (advanced study work, oh Luke Skywalker; Jedi Apprentice).

Because in a way; it's a role or character you are playing for your soul tribe; however, that can be the BEST, authentic version of yourself! (And essences don't lie). I'd take the time to get THIS right esp. If your marketing is getting shitty response beyond Facebook algo-bots taking a temporary hiatus at someone else's backyard BBQ.

**The ARCHETYPES are a major missing piece of this that can pull it together**...they amplify your soul's qualities (and are UNIVERSALLY desired and relatable); you just have to get everything in alignment with your codex and then have ways to either attune for transformation or embody directly (*which I can help you with after doing 1000s of [archetype activations](#) for others*).

It took me YEARS to get clarity on my own debut Star codex; that specific signature codex and the order of it and now I want to help you get clarity on YOURS.

If you are missing just ONE of the key pieces on the CLARITY of your Star/let Codex consciously; you may not enter that ACTIVATED flow of passion, alignment, recognition and service...because really, it might be a hidden shadow that is preventing that ONE piece of yourself from fully being seen and pulling it ALL together.

See; the STAR or STARLET version of yourself is ALIGNED, empowered, embodied and expressed in divine public service. He or she doesn't have the current blocks and limitations you have right now (because the archetypes don't have those issues); you just have to get **CLARITY on WHO your highest version of self is** and then EMBODY and expressively LIVE from that place of soul alignment and expression.

ARCHETYPES and archetype codexii ARE the secret of celebrity influence; actors and actresses btw; which - when expressed are charisma and allure.

It allows them to be 'larger than life' (and yet authentic). Your divine codes have to have the temple body and infra-structure to HOLD your embodied Power and Beauty so it actually helps if you have **a BIG LIFE PURPOSE**...you have more reason to embody these Godly fractal codes and qualities from the collective psyche.

Your future people are waiting for YOU to step into your true aligned power and divine service on a larger scale. Will you do it for them?

**KNOWING your Star/let codex is the most powerful way to get in alignment and assuredly be ON THE PATH immediately.** ALL of your communication, visuals, styling and marketing should then transmit from this core center.

I do recommend to have a 'debut' (or re-debut) date however so that you can professionally prepare and integrate things. [A makeover approach like with the full AvaStar Makeover](#) process itself would be PERFECT to undergo a rebirth.

This 'debut' date can also be a calendared date where you will re-debut or re-introduce yourself after a makeover as a 'next season' of your more embodied and essenced divine self; one where your image and EVERYTHING about you, even how you speak and your body language is so attuned to your soul self and rich spirit qualities that commands RESPONSE and engagement effortlessly from people. Yes; it's your charisma/allure that is a big part of this makeover.

Get ready to take the time for this; it will pay off richly for you.

Discovering and KNOWING your Star/let codex is our intention in this book; to get you hopefully at least 75% there by (you) doing the workbook process itself. YOUR SUPERFLOW COMES FROM YOUR ALIGNED IDENTITY. That alone can be enough to shift your tone, language and visuals in how you're

communicating and with marketing to live in more aligned success professionally and socially.

But if you really want 100% clarity, again we can tone that in with the [AvaStar Makeover itself](#) which includes consulting and actual direct progressive work on your light body to literally EMBODY and RADIATE your authentic unique Star/let signature self itself.

On a separate note (b –phlat?) it sounds cooler to me in retrospect to call this the ‘Star Codex’ (workbook), thereby I reserve the right to call it by its cooler name or by its already set and better for you name of ‘My (that’s you) Star Codex workbook’, but HEY...it’s still the same workbook. You get the coolness of general Star and warmth (YOU and me being in service). I’m still not going to give up MY coolness and this workbook will help you find your own coolness and warmth balance or SEXY and INTELLIGENT; fortunately, you can HAVE IT ALL when you discover your own Star or Starlet Signature Codex! (It’s Muse and I in our Sacred Union that came up with this btw off of the Beloved Codex concept). And I know the value that MY own Star codex means and feel warm about empowering you to have YOUR own level of self-authority ownership with this.

## ***Why am I (el Rion) doing this?***

Well; similar to the concept of '[Who is my Beloved' workbook](#) associated with the Grail Kundalini experience (*which helps you to get clarity on your Immortal Beloved's exact signature codex which awakens and psycho-activates ALL of you in all dimensions*); discovering YOUR Star/let codex is also be a high value, life-changing concept with immediate rewards (easily worth \$1000s of dollars just discovering it).

It's something that I led with by doing myself and now I'm offering it to you and others (*also because they've inquired and been receptive to this EXACT CONCEPT of getting out there more publicly themselves in FULL ALIGNMENT*

*and success-readiness). This is really like SOUL-STAR BRANDING PREMIUM WORK here.*

So by giving so much value away for you to discover and get clarity on YOUR Star/let codex and the 'brand of you' (*which can get value out there 24/7 from my side producing it once*);

I figure the next step for many of those also going through this workbook will be easier to take; of being inspired to step into the direct embodiment and expression work FOR your LIVED STAR/LET so that you can then LIVE as your heaven on earth self in as little time as possible (*by investing into the new AvaStar Makeover + ongoing monthly star growth maintenance support program*).

Of course you wouldn't have to join the AvaStar; however, it would be a smooth like butter transition that would ***ENSURE your professional makeover for debut and re-birth.***

You might even want to just join it right away to ENSURE that you break through and then start going through the workbook itself more while completing the process with me.

Also this is in core alignment with my mainstream work anyways which is as the leading charisma and allure consultant (*and really it's in training the Allure Priestesses so that THEY get the attention for the Beauty industry*); but I'm going to be working with celebrities on THEIR image and archetypes; their felt influence as well as professional actors with 'Essence Acting' which is all kinds of

*this exact work. I've already worked with 100s of clients from around the world with archetypes and siddhic codes.*

By me giving \$1000s away for 'free' again (or as part of the AvaStar Makeover inauguration period), it's helping to sell you more on the version of you that you desire...once you have that invaluable **Star/let Codex** clarity with no further obligation, you might feel *"Wow...I'm SO far ahead, it's already paid for itself ahead of time - that the FASTEST path would be just to hire Rion from inspiration so that we can then activate and embody those exact qualities DIRECTLY in my authentic and soul-service social identity and image."*

I'm in divine service either way. I'm 9 out of 9 with 100% success ratio on the workbook + [Grail Kundalini](#) consulting time of locking in the EXACT codex for different individual's Beloveds. (And EACH of them had a uniquely different codex). **NOW WE'RE FOCUSED ON YOU (instead of your Beloved) and your STAR/LET CODES.**

I'm going to continue the same success ratio here. I'm really good this. If you're inspired to give me a testimonial on this workbook (*whether you join the [AvaStar Makeover + Growth Maintenance](#)*), you're more than welcome.

Imagine how much TIME this is going to save you including possible YEARS of marketing frustration or stagnancy and confusion. If you're a spirit-centered entrepreneur, it's likely that YOU are the brand yourself and that's going to be what influences and sells...it's best to get that authentically right anyways because you have very psychic prospects and clients.

This workbook isn't for marketer bros who hide behind the scenes and crunch numbers with old school manipulation tactics and so forth of 'mass control'...this is for authentic, image valuing spiritual influencers, personalities, conscious - heart or spirit-centered entrepreneurs or anyone who values greater AUTHENTIC visual and brand impact and influence with their gifts and magic (as an antithesis to AI).

The brand isn't just your experience, content, knowledge, visuals and traditional marketing; it's the signature POWER and BEAUTY codes you represent and HOW you are a compelling star that they want to be around because you are that embodied and free in YOUR power and they respect that and want to be like you or near you. It's communicating your codes AS A STAR or STARLET of influence.

Releasing the **Star Codex workbook** gets more value out to more people like you who are meant to be seen in your gifts on a greater scale and then a % of them will want to join the AvaStar to lock things in because they're serious about their spirit-based success and THEIR form of celebrity and just do the actual transformational work itself for their debut (or re-debut/reinvention).

Producing the workbook helps save me time on our (optional) upcoming consulting in the makeover itself (*otherwise I'd charge even more just for that extra time obviously; but so we can get the final clarity and then work on activating and embodying your Avatar Star self*).

And of course, there's also the reasoning that it's time for more of us who have Ascension codes to be in OUR STAR/let power out in the world to bring in the new codes that break up and dissolve forms of archaic tyranny in different industries and so forth. It's time for US to have real social power, status and

impact on others on a larger scale; where forms of power are in benevolent hands to evolve industries on the frontlines.

And this whole process may include ***clearing up your own value conflicts around 'star' and 'starlet' or 'spiritual influencer'***. So, I would trust the process itself...this is all about YOU.

We're going to have plenty of upcoming specific examples in the workbook portion that will guide you into toning YOUR signature, iconic avatar self for public influence 'in'. It will pull together if you'll do the work and what you end up with should EXCITE YOU and reinvigorate and recalibrate your entire business if you're in one as well as igniting your own followers with ALCHEMICAL transmissions from your identity and flow.

If you're already successful on a certain level, this Star/let Codex can help you regroup to re-debut or recalibrate your work to even GREATER impact in raw authentic alignment and transmission throughout your social visual media.

You might even want to hire me just to get clarity on what you already are that is working and to embody even MORE of your truth because you are called to even greater levels of service and felt influence. I know you might be itching to discover YOUR codex even if there are happy little accidents and scrap-booking along the way...

**SO....to review; YOUR Star Codex itself is;**

The exact elemental, gift, siddhic, archetypal, soul value, Light and Dark balance of codes in proper sequence that solidifies, ELECTRIFIES, amplifies and IGNITES your FULLEST soul 'n spirit aligned and embodied ICONIC identity and transmission service to others.

This version of you is going to EXCITE and IGNITE you yourself AND others (even me, myself and Irene). It carries with it the POWER of archetypal and siddhic consciousness.

This can be miraculous if you've been 'stuck' or stagnant like frozen pond water for years.

*BTW; I wouldn't be thrown off by my smaller IG following..I have active clientship and have held off for years on starting Instagram until I debuted only recently 10.31.2025 so although I have 1000's of facebook followers and haven't friend requested a woman in over 8 years; my IG is now going at a responsive yet scalable smaller scale b/c I held off until I had what I'm now offering you (POTENT CLARITY and readiness for debut).*

You would want to value fame as a different variable than charisma and star embodied identity. I've got it going on in alignment and you don't have to wait to watch my IG platform scale through time; I'm living in powerful clarity and alignment at cause, have a LEGACY of 100s of clients and testimonials and helping THEIR embodiment and makeovers...now it's specifically the STAR concept and most importantly I can help YOU quantum leap (I've already helped other industry leaders as their secret weapon, etc.).

And I'll give examples of these different kinds of Codex elements as we get into the workbook itself; just trust the process.

You don't owe me anything by going through this yourself; take full advantage of this ***as it's all yours*** if you already have your hands on it (I may eventually rescind it FROM public awareness to make it only available in the future for new people as part of the AvaStar experience however); but it's yours if you have it...so rock it with your rawhide self!

With that said; you may be inspired based on the level of clarity and value to strongly consider working with me to complete your debut process. That would be amazing, or maybe be open to referring me to someone else.

SO...

***Are you ready to get clarity on the UNIQUE, highest self, public divine service version of yourself unthrottled? Your ICONIC SELF that MAGNETIZES?***

Are you ready to actively plan your debut or re-debut itself as the SIGNATURE, felt impact, divinely led and recognized version of YOU that you were always meant to be (influencing the masses)? At time of release here, December is a PERFECT time to PREPARE for your next major breakthrough, rebirth and debut!

**Ready to blow up in 2026 at the scale you desire?**

***LET'S GO!***

.....

# **THE** **WORKBOOK** **ITSELF:**

***\* Denotes Actionable Work-space***

*(You can print this out or use notepad, pen and paper offline, etc.)*

\*Can you give yourself space to dive in and trust this process?

Yes

No

Ok; let's get started!

Similar to the Who is My Beloved workbook, we're going to go through this process of getting clarity around your Archetypal, Siddhic, Light/Dark (and now 'Gift') and soul value areas; each element being a 'code' of your overall codex itself (ie. 'Dark King' or 'Grace' or 'Priestess' would be codes in an overall codex).

Much of this process may seem like an allergen test...so you're just being in a contemplative state and noticing HOW and to what your body/soma/soul/heart lights up to and responds.

GO WITH THAT as guided and there is room to refine the process throughout. So before we delve into the codex architecture itself, I have some warm-up questions.

\*Can you give yourself space to dive in and trust this process (knowing that you can spread it out and take your time)?

Yes

No

\*Do you feel you are destined for more? For greater impact and influence on a social, cultural or collective level?

\*Have you been preparing for that?

\*Do you have value conflicts or resistances that may arise to the surface around the concept of 'influencer'?

\*How about resistance around YOU becoming an influencer if you were very embodied and in-self?

\*Do you have value conflicts and resistance around the terms 'Star' or 'Starlet'?

\*What if 'starlet' wasn't a celebrity and your projection of their superficiality and shadows as something outside of you, but what if 'Starlet' could be Soul Starlet of your aligned and embodied essences and that it was ok to be someone of INFLUENCE)?

\*How would you feel if you had more social power and status but were IN divine service? Could you be ok with that power (in knowing that it would help dissipate tyranny in the world from misuse of power)?

\*How do you feel about 'fame'?

\*Are there 'spiritual influencers' or soul stars or starlets that you admire and look up to?

\*Can you discern any of their archetypes from your current awareness (if so; list them here);

\*Are you resisting being seen and having a lot more attention on you? Have you been 'hiding out' or perpetually 'preparing' for success?

\*When SHOULD you actually set a date for 'debut' if you are serious about this? 6 months? What literal date? (I set a date and it was Oct. 30th, 2025). What would be your debut ACTION? (For me it was uploading my big reveal Instagram video and kick-starting that account).

\*Wouldn't it be OK to be a spirit-aligned influencer? Aren't guru's and masters those of spiritual 'influence' also?

# Archetype Codes

Now...In feeling into your deepest truth as the **constellated AVATAR soul empowered version of yourself in the public eye** but sourced from within; let's go into codex development. The archetypes and YOUR primary, secondary and thirdary archetypes are a foundational aspect of your Star/Let Codex itself. We want to get clarity on which you resonate with and then can narrow it down to the codex format.

Archetypes represent iconic God and Goddess-fractal aspects of Power and Beauty in the collective. We want to see which most align with your soul identity and branding; for there is MUCH power, attraction, magnetism and alignment with archetypes.

Star-celebrities as we know it often thrive on fundamental archetypes and combinations of them such as Angela Bassett in 'Black Panther' as Queen or Batman as 'Dark Knight' for example. But we want something more specific than just Star although Tom Cruise himself is a quintessential example of a star.

\*From this list; which (or what) archetypes do you feel would possibly be included in your codex right now? Circle those which resonate with you the most.

*(Go with what is appropriate for your identity as male/female; in some rare cases there may be crossover archetypes).*

### 3D-5D Masculine Archetypes:

Brother  
Model  
Architect  
Magnate

Rake  
Soldier  
Mer-man  
Tsar  
Pioneer  
Sultan  
Conductor  
Torchbearer  
Monarch  
Chief  
Ruler  
Sleuth  
Investigator  
Gladiator

Some of the 5D archetypes could cross-over into 3D/4D and vice versa as listed above..it's a general access flow.

Although these following are more worldly archetypes are not normally connected to the divine, within the context of your Star codex itself it may actually hit THE sweet spot of a practical mix that you may feel is

otherwise missing...for example (and yes we're getting ahead by listing some Soul Value areas here but for example);

*The Shaman-Captain of Earthly Medicine for (Steering) Awakening in Corporate Leadership*

or...

*(ie.) Helmsman of New Earth Awakening for Single Fathers*

I mean think of the power of just 'The Dark Knight' or the 'Joker' (as Shadow-Dark Jester and Nihilist) archetypally speaking (and largely known as 'Batman'). ***Accessing archetypes and their consciousness and essences for identity allows you to play a greater game with the larger currents of authentic power and influence.***

Again; a PRIMARY secret of most celebrities, artists, entertainers and performers – archetypes are HIGHER truths; we just usually focus on the lower truth DUALITY of their name, culture, genre, niche or 'talent' instead.

This process is less about your 'personality' but more about your Star signature qualities FROM WHICH then your more unique persona will come through and so forth. Archetypes are keys to most power and beauty as we know it, socially speaking.

Your soul has the power to expand its identity to EMBODY archetypal quanta in Presence when you could struggle for years with being a Prince on the logical level; you can still embody ie. Prince codes (I'm a

master of working with archetypes for a LONG time now in helping many people and READING archetypes). *So give your STAR self room to play and breathe with Power and Beauty for living heaven on earth.*

Anyways;

*\*So; go ahead and tentatively circle some of those that you resonate with.*

### 3rd dimensional Masculine Archetypes:

President

CEO

General

Chieftain

Captain

Boss

Helmsman

Kingpin

Executive

Count

Baron

Financier

Administrator

Pastor

Director

Tycoon

Comrade

Impresario

Producer

Ninja

Samurai

Lothario

Preacher

Magistrate

Busboy

Purveyor

Concierge

Dishwasher

There are also many astral and social cultural archetypes that we're not even going to mention here (SJW, Red Pill Bro, Karen, Struggling Actor,

AMOG, etc.; ok 'busboy' probably fits there too). These are often more conflated with shadow.

You may even actually want to consider an anti-hero archetype if your purpose (or a portion of your codex) is related with dismantling old structures ie; Vagabond of Patriarchal Shadow Conformity in Entrepreneurship

Anti-Hero

Vagabond

Rebel

Destroyer

Or some Dark archetypes (put Dark in front of some of them to see if something really hits ie. Dark Hero of the Forsaken Children taking on a system that you find of tyranny, etc. or 'Dark General of Anti-Archonic Warfare' or 'Dark Guardian of Medical Malpractice')

Now...for the **Feminine: Archetypal Starlet Codes.**

\*Which of these archetypes do you KNOW that you either have a strong soul resonance with (now and long-term) or that you already embody that still fit with your Starlet self?

Circle those and mark them with something (ie. @) them if you would like to embody them more.

(% = Those that you don't have, but feel really drawn to)

These are ***IN-definitive lists btw***...there are many more (obscure) archetypes and yeah; we're not going really into shadow archetypes (ie. 'Jezebel' for I don't want to be the 2nd hand cause of the downward spiral of Western society; I'm more about ascension and reunification).

BUT; this is your process and I am held exempt from any and all negative claims. Any positive claims you can attribute this direction however. Ok...!

## **Female Archetypes:**

Lover

Eros

Goddess

Queen

Daughter

Sex Goddess

Sex Symbol

Daughter of God

Mage

Muse

Starlet

Aphrodite

Maiden

Sister

Sistar

Midwife

Lady

Vixen

Rebelle

Dominatrix

Belle

Enchantress

Seductress

Mermaid

Comedienne

Healer

Witch

Celebutante

Model

Mystic

Alchemist

Courtesan

Chanteuse

Holy Daughter

Debutante

Faerie

Dakini

Empress

Courtesan

Wife

Shamaness

Holy Bride  
Medicine Woman  
Psychic  
Prophetess  
Medium  
Alchemistress  
Mistress  
Dancer

*(Again; an indefinite list; I know I'm missing some good ones...consider that you can put Light or Dark in front of them - so if you're aware of something not listed here, please add it if it's 'you').*

In large part; again, we are staying away from Shadow archetypes like 'Villain', 'Slut', etc. however they MIGHT be part of your process during a specialized phase of healing or reclamation in which ie. 'Slut' as a purified Dark archetype minus shadow and cultural associations with shadow can be empowering and even healing in ways).

(I'm not taking time in this workbook to explore each individual archetype and their qualities and signatures; my goodness, we don't have 'all year' to take!; HOWEVER you can further research online about specific archetypes and their qualities if you are drawn to them. I can also do direct consulting in time with me on all of this (but it's just TOO much to take on here so go with what resonates with you).

Some more unique, cultural archetypes with ever-reaching universal signature qualities. (Circle any appropriate)

Madonna

Isis

Melusine (a N. European form of Mermaid)

Quan Yin

Persephone

Gopi (a Hindi maiden)

Inanna

Ishtar

Cleopatra

Countess

Lady

Nanny

Leela

Lanna

Shakti/Parvati

And more general cultural archetypes like 'Curator',  
'Chancellor' or 'Aficionado'

Key note: You may also want to add 'GRAIL' in front of any archetype IF you know what that means (reunified with the Divine masculine or feminine contra-sexual); this opens up entirely new worlds of power, magic and beauty. In fact, POWER TIP to remember now because I won't mention it again and it pays to pay attention...IF you are into Divine Union, you may want to add your BELOVED'S key archetype codex in front of YOUR long-string codex like I've done with THE Muse Magician; putting HER as classifier in front of just Magician is the MEGA DIFFERENTIATOR and lands me in full power.

NOW....THIS is an important part of our process because your archetypes are the fundamental pillars of your Avastar Self Identity as a star or starlet.

But it's not definitive 'this minute'...just go with the flow and your overall gut feeling, draw, instinct and intuitive response (you can use your Human Design authority if you know what I'm referring to and give it more time and return if you are an emotional authority for sure). We want a general 'ballpark' idea.

FROM the circled or highlighted ones, you will come back to reference them in pulling your codex together in development.

*Ok; for both male and female (work...) continued....:*

\* What do you sense might be your PRIMARY, secondary and thirdary archetypes that comprise the foundation of your STAR or

STARLET if you had to choose (now or within a minute but non-committally)?

For men;

*ie. Prince Eros-Lover*

*King Warrior-Sage*

*Emperor Star-Prince*

*etc.*

or for women/feminine;

*ie. Queen, Maiden-Muse (in the order of predominant first)*

*Healer-Priestess Medicine Woman*

\*Which is the archetype you would say you embody the MOST right now from what you've circled?

\*Is there an archetype do you feel might be 'THE' single missing one that; if integrated would propel you into being full seen an public?

\*In reviewing your CIRCLED archetypes; what would you say your PREDOMINANT and 'leading' archetype would be 'if' you had to decide within a minute? **Which is the MOST identity level important for your Star or Starlet?** *(This may or may not be different than your current most embodied one if you're aware of that)*

*For me it's simple if I had to boil it down, it's obviously 'Magician' (or 'Sorcerer'; however Magician is more mainstream friendly). My long-string codex would have Dark Eros, Showman, Daka Priest, etc.*

*(Again; we don't have time to delve specifically into archetype DEFINITIONS and visual examples here; although I can with consulting (but from what you already sense and know of them);*

\*What would you say tentatively for now would be your 2nd and 3rd leading archetypes afterwards (even if it includes one that you are weaker in)? Take your time with this....contemplate the circled and numbered archetypes *(and be open to re-number them)* and really tune in to the vision of your fullest self doing what you do being seen by others. Is it an entirely new archetype?

Ok...you can come back to revisit this and assure these still feel right. *This should be an enjoyable process btw, nothing like the 'Pit of Despair'.*

A main thing to be aware of is that yes; there will likely be a WEAKER archetype yet THAT ONE holds the key to really getting you public or live. FOR MOST of the people doing this workbook (myself previously included in my own process); it's going to be simply the STAR or STARLET archetype which AMPLIFIES everything in divine public recognition and service.

That alone may be the weaker one but still; explore other archetypes if there are ones you feel are part of the fully constellated version of your avatar self and how you idealize yourself to be.

\*Room for notes or adjustments here on your Top 3-7 archetypes:

\*Yes; you can give space for your top 7 here and then sort them into your top 3-5:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

7.

**\*Double circle the archetype you feel might be either your weakest and/or the one that sets you into public service and virality with confidence.**

For me it's ROCKSTAR (which is a form of Star). It might NOT be Star or Starlet for you, but just trust the process. It might be a different archetype like maybe just being more expressive with your EROS for example AS your avatar self being seen.

Now...

**\*Do you feel you would mostly be Light or Dark in EACH of your top archetypes?**

*(Treat each of them separately and feel into what the balance of each archetype might be in your PUBLIC essenced-self soul-transmitting persona ie. 85% Dark Warrior or 66% Light Mermaid, 25% Dark Sorceress, etc. Remember that here we are valuing shadow-free Light and Dark pure essence without corruption; thereby divine qualities with Dark being short-code to the Erotic and denser, dionesian purity)*

**\*You can explore writing your top 3-7 archetypes with those explorative Light/Dark ratios/numbers (as felt sense guestimates) here: *(or on paper)* >**

Now; your IDEAL Star/let Light/Dark balance may be quite different than where you are now.

I can help you with all of this, but just go with what you feel it should be; are you meant to be more of ie. a Dark Earth Huntress Medicine Woman or more of a Light Eros Healer Midwife (for example)? Guestimate what percentages of Light to Dark of your top avastar archetypes above.

Interestingly, and I guess it's worth mentioning that my Lightworker or Magician in temple space is 100% Light even though I do Dark work as well. There are different archetypal components that COMPRISE the overall you. Some may be darker or lighter than OTHERS (and this can be a fascinating signature paradox; intoxicating for others).

OVERALL however my IDENTITY as embodied star of Rion Kati avatar self is 50% Light and 50% Dark as full-time center because my Eros is (~say 70%) Dark Eros (which is only in my extended long-string codex and not the short-form Codex of The Muse Magician Rockstar); it's so activated, thereby in my presence/image the Dark Eros balances out the mostly Light of Lightworker/Magician.

I think that makes sense to you so just trust the process and get individual clarity on EACH of your archetypes as best you can. Of course I can read you if we have consulting package time together (like in the Avastar) to get these numbers down).

For deeper archetypal Light and Dark (vs. Shadow) research you can look into Dark vs. Shadow on the blog (and any related posts connected to it);

# **ELEMENTAL CODES**

\*In describing your Star or Starlet self; are there certain ELEMENTAL qualities that you feel would really be ENCODED and descriptive in your identity and visual media influence?

*(Circle and number in top priority)*

**Earth**

**Fire**

**Water**

**Air**

**Aether**

**Light**

**Metal**

**Wood**

**Sand**

For reference; maybe consider turning your favorites into usable codes such as 'Earthen' or 'Watery' when compiling your codex itself. *That's different btw than naming your favorite 'Earth, Wind & Fire' songs.*

(General breathing room space or hot cocoa time)

Now; let's make some space for Divine Adjective development as part of your overall Star/let Codex.

## **DIVINE ADJECTIVE CODES:**

Divine Adjectives or Descriptors; Here is a short and obviously IN-definitive list of things you may want to add.

*\*Circle your favorites and/or add to the list on your own*

which can be codes/keys to emplace throughout your unique Codex.*

\*You can add more divine adjectives here for possible use later and  
circle the ones you are vibin' with:

# Siddhic Divine Adjective Codes

Although we're still getting to the Siddhic Codes section of the workbook (a major piece of pulling together your Star identity codex), these are another sourced form of adjective codes with their own qualities;

Each of the Gene Key/I Ching sourced 64 siddhis you can also turn into an adjective like compassionate (GK36) and ie. GK37 'tender'. I'm not listing all of them out, you can be pro-active on this part by going further down to the Gift and Siddhis portion; however, you can [reference this chart](#):

*Embrace the Shadow, release the Gift, embody the Siddhi.*

\*You can list Gene Key Divine Adjective/Codes here by starting with [your hologenetic profile](#) and add any of YOUR Gene Key siddhic qualities turned into an adjective.

You can browse the overall list of 64 siddhis and add ANY which you resonate with (*ie. GK29; Devoted, GK58 Blissful, GK16 Masterful, GK32 Venerable, GK35 Boundless, , GK56 Intoxicating, GK30 Rapturous, etc.*):

*(You can get your free hologenetic profile @  
<https://genekeys.com/free-profile/> )*

*(It's good to write them down!)*

\*Again; write and then circle any general divine or Gene Key siddhic converted divine adjectives above that you sense and feel could be part of your overall Star/let Codex!

## For Men: Elemental + Archetypal Mixing

Now...Take some time to start mixing the elements with your favorite avatar-self representing masculine archetypes from the list above with your preferred elementals.

For example; if you like 'Earth' for the grounded, salt of the earth masculine, write out your circled archetypes after 'earth' ie.

*Earth King*

*Earthly Lover*

*Earth Architect*

OR ie...

*King of Light*

*Wizard of Metal*

*Magician of Air*

Sultan King of the Sands...of 'x'

*(soul value area or something else ie. Timelessness to get a little bit ahead of ourselves to see where things are going)*

Light Warrior

Light Guardian

Air Prince, etc.

\*Write your combinations of elemental + archetype clusters out here and mix 'n match:

*(spacey space)*

## For Women: Elemental + Archetypal Mixing

\*Now...Take some time to start mixing the elements with your favorite avatar-self representing feminine archetypes from the list above with your preferred elementals.

For example if you like 'Water' for the grounded, salt of the earth masculine, write out your circled archetypes after 'earth' ie.

*Water(y) Mermaid*

*Earth(ly) Goddess*

*Air Oracle*

*Light Huntress*

*Fiery Eros-Lover*

*etc.*

Write combinations here\* (these could end up being part of your codex). *When you revisit the workbook, come back and circle your favorites and then put numbers by them with '1' being your favorite, so number them 'in order'.*

\*Now take some space to explore more and explore some longer string combinations of codes with more 'Light' or 'Dark' wherever it may best fit in the mix from your above elemental + archetypal combinations.

*ie.*

*Dark Eros Soul Warrior Light-King*

*(Write Here and put 'Light' or 'Dark' in front of different archetypes)*

\*Now start adding in some divine adjectives...

*(ie. Dark Erotic Luminous Soul Warriress of Timeless Passion)*

# Gift & Siddhic Codes

*(We're just exploring and being pre-formulative here like a scrapbook...some things should however start pulling together as standing out. We'll later revisit these and pull together all of the elements in the process)*

Now...let's go to a major aspect of your codex itself. The Gift and then Siddhic qualities. These are sourced in the Gene Keys lens (inspired from Human Design and the i Ching).

Of relevance; I am a **certified Gene Keys Guide**; however, our work with them here is not sanctioned by the founder Richard Rudd or Gene Keys (*honestly; it EXPANDS the legacy imho*). For this work, you will also to reference your own hologenetic profile if you haven't yet secured it in front of you (it's free).

You can reference YOUR already pre-encoded siddhic qualities as part of your frequency bands in your hologenetic profile and other resources which you can find at <https://genekeys.com/ref/1901/> (my affiliate link). Click on the 'Free Profile' link and enter your birthdate, time and location to get a free pdf printout. This can support your work here. You will want to reference YOUR gift and siddhic qualities especially or at least be aware of them.

In the '[Who is my Beloved](#)' workbook on getting your Immortal Beloved's CODEX that is psycho-activating for your Divine Union transfiguration; we skipped the Gift qualities intentionally because the Immortal Beloved is more sourced obviously in divine qualities and Gift are more practical and interchangeable in the 3rd dimension. Here; for your practical Star/let we'll want to explore Gift signatures.

## **Gift Codes**

\*Circle and highlight codes that STAND OUT TO YOU (whether they're in your chart or not) on if they might be part of your Star/let Codex itself (long-string format).

- 1 Freshness
- 2 Orientation

- 63 Inquiry
- 64 Imagination

Although we don't have time 'here' for an educational deeper dive on them; tune into their energetic signature and their deeper implications. Did you circle the resonant ones? *Space for writing...*

\*Which are the ones in your hologenetic profile/chart?

\*Now, I want you to write out all of the names of the gift qualities that you found yourself responding to manually (or type);

\*Which are the ones that stand out the MOST to you when it comes to representing your fully actualized AVATAR, practical self living heaven on earth? *(Which ones do you respond to the most)? (ie. Imagination, Patience, Determination)*

*(Writing room)*

What we want to do now is have you run through them again or CONTEMPLATE how you are feeling so that then you can order them in the placement of the STRONGEST somatic, energetic or emotional response you have to them to the weakest.

Remember; these are your gift signature qualities of your Avatar self (even if they're not yet accessed or embodied); so they could look something like;

My Gift Star/Starlet self embodies and radiates:

(ie.)

*1. Artfulness*

*2. Idealism*

*3. Understanding*

*4. Adventure*

*...*

*9. Commitment*

*etc.*

\*Put the Gift codes in the order of your strongest responses as if these were qualities of your truest Avatar Star/Starlet self:

1.

2.

3.

- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

\*Are there 1-3 gift codes that might actually make your long-string codex itself (that really feel a fundamental value part of your identity and behavior)?

*(List them here)*

And now....Siddhic qualities. These are enlightened and alchemical signatures of consciousness and Beauty-truth spirit quanta presence (that THEN affect behavior).

# **Siddhic Codes**

From the 64 siddhic qualities listed in the Gene Keys spectrum of consciousness. The list is below.

These are specific signatures of enlightenment AND Power/Beauty sentient plasmic chi spirit matter presence; in other words FEELABLE. As you go through the list and/or supportive audio that names them for you to respond to like an allergen test.

\*Which are the ones in your hologenetic profile/chart? (Circle, write or highlight them)

Are there ones that when you feel into the word gives you full body shivers, activates your womb or lights you up in a subtle or profound instantaneous way (whether in your chart or not)?

\*Which are the ones that stand out the MOST to you? (*Circle from the list below or write them*).

If available, you can also please reference and use the bonus audio portion (repurposed from the 'Who is My Beloved' codexing) where I name the 64 siddhis with the Gene Key number afterwards and then 'in real time', you can denote which ones that stood out to you either by

writing or by circling the numbers I repeat after each below. You can have as many as you respond to.

These Gene Keys do NOT have to be in your own hologenetic profile. Remember you are responding to the SIDDHIC divine qualities that you feel REPRESENT as well as activate you the MOST in your Star/let embodiment and service.

When you are selecting, this is a process in which you want to bypass your judgmental, egoic mind and what it THINKS that you want (or at least have that as backseat).

You want to purely go off of your FEELINGS and instant response of your idealized self. It should be YOUR version of 'The Ultimate Warrior', 'Biggie Smalls' or 'Mean Gene Supreme' but for YOU.

Something you are RICHLY SOURCED in at a spirit-level of identity to interface and inter-communicate with the world (*Gillian Pothier points out how oddly masculine that is of me to say that to Erosy women; 'interface'.* But really to ENCHANT your soul tribe because you are so powerfully aligned and radiant.

IF you know of Human Design already (we're otherwise NOT going into that deep dive here):

If you know that you are a Human Design generator, your strategy is to respond so be open to hear any vocal sounds, sighs or gasps in the

moment connected to your sacral when you feel each one as a QUALITY of your Beloved.

With some you may feel nothing at all. If you are an emotional authority you may want to do this soon when you can be as calm as possible and then do it again in about a week so that you can *check back in with your work/results* when you are at different point in your emotional wave.

This can help you with more accuracy instead of just throwing spaghetti on the wall...we want to pick out the juicy meatball parts (*or if you're vegan the gluten-free chunks of something/pasta*).

If you are a splenic authority who has deconditioned, you should be really in the moment with what you KNOW is a quality of your Avatar self.

If you're not aware of what I'm talking about, just be in touch with your somatic body and what you find yourself responding to when you read or hear any of these qualities as aspects of your Star or Starlet avatar self idealized and actualized.

IF you have access to it, you can use that audio now OR the written list and write your answers below (*or on notepad, sharpie on the wall, etc.*)

You can run through this process a second time if you feel your ego was causing interference and you weren't as presence and in touch with your

body. I recommend to put on some candles and incense during this process being as embodied and sensitive as you can.

Here is the printed list of the 64 and you can circle them while listening to the audio (or go off of the written list intuitively).

(take a breather and prepare yourself to TUNE in deep into your body and treat each of these as their own tangy pop rocks...well some of them might metaphorically be that...just be extra sensitive and ready for this...)

## **64 Siddhic Codes of Consciousness**

*Also as enlightened aspects of Divine Masculine & Feminine.*

Here we're valuing a filter of YOUR avatar fullest Star and Starlet self (these may shift or changes years down the line but go with NOW).

What qualities do you FEEL and respond to NOW as part of your AVATAR truest self, your beauty + how you're meant to be experienced in the social world?

**\*(Circle all those that you resonate with as codes of your Avatar Star self)**

Here is the printed list of the 64 and you can circle them while listening to the audio *(if you have it, otherwise just reference below whether you're otherwise familiar with Gene Keys or not; it's the POWER and signature transmission behind each of these in Truth sourced in Spirit/God/Allah/Tao/The Universe).*

\*Now, I want you to write out all of the names of the siddhic qualities that you found yourself responding to manually (or type) even if it's cloudy with a chance of meatballs today;

*ie.*

*'Boundlessness, Grace, Majesty'*

*(Writing room)*

What we want to do now is have you run through them again or CONTEMPLATE how you are feeling so that then you can order them in the placement of the STRONGEST somatic, energetic or emotional response you have to them to the weakest. Remember these are your

siddhic signature qualities of your Avatar self (even if they're not yet accessed or embodied); so they could look something like;

My Siddhic Star/Starlet self embodies and radiates:

*(ie.)*

*1. Majesty*

*2. Honour*

*3. Freedom*

*4. Unity*

*...*

*9. Tenderness*

*etc.*

\* Put these in the order of your strongest responses as if these were qualities of your truest Avatar Star/Starlet self

1.

2.

3.

4.

5.

6.

7.

- 8.
- 9.
- 10.

These siddhic codes/qualities; these you can view as supplemental signature encoded 'toners' or 'classifiers' that get your signature more accurate and descriptive to you when we pull your primary and secondary archetypes together + gift and other codes. Like '**Dark Graceful Patient Princess**' is already setting an entire mood-vibe and erosphere...so these add up fast when we start codexing them.

Again; these 64 are taken from the Gene Keys spectrum of consciousness inspired from the ancient i-Ching. We don't have time to delve into any of them specifically here (I do these as activations btw) and Gene Keys is its own world! *(Yes, I'm a certified Gene Keys Guide).*

I do offer 75 minute paid audio profile readings you can inquire about with GK/Human Design. They are kinda hidden on the main website.

Now...let's put both the gift and siddhic signature development on hold for a bit if you've done some development.

# **Soul Value & Service Codes**

IS there an area or areas of soul matters that you KNOW your soul highly values at a very deep level? Something that may be related to your big purpose or soul service?

(ie.)

The Arts

Artistry

Women's Rights

Erotic Innocence

Freedom of expression

Lineage Healing

Alternative Medicine

Beauty

Mute All Neighbor Dogs

Sacred Temple Space

Spiritual Growth

Financial Freedom

Sovereignty

Reclamation

Awakening

Children

The Rent Costs Too Damn Much In Nyc

*(er whatever it is for you but probably more universal themes that are less mundane and that's subjective anyways)*

Divine Power

Sexual healing of trauma

Why Aren't There Strawberry M&M's

Emotional Freedom

Devotional Love

Hieros Gamos / Communion

Erotic Sex

Somatic Safety

*\*(You can circle any that resonate up there btw)*

Those are just some ideas.

Write down some of YOUR core values and areas of passion. This can also be the areas where you are meant to be of (and in) divine service.

For me, I would write down (ie.);

*Performance arts & entertainment*

*Music*

*Movies*

*Awakening*

*Creativity*

*Flow*

*Inspiration*

*Beauty*

*Sex*

*Mastery*

*Influence*

*Heart*

*Recognition*

*Magic*

*Legacy*

*Galas*

*Light-working*

*Sexiness*

*Social status*

*FUN!*

*Adventure*

Remember, you're being honest with yourself!

\*Write down some 20,000 leagues fathom-less-esque deep soul values here:

*(Use more paper if necessary)*

Now; could you combine some of your top 3-5 Avatar Star (AvaStar) archetypes mixed with your SOUL VALUE AREAS to come up with some examples ie.

*Mermaid of the Arts*

*Guardian of Natural Wellness & Alternative Medicine*

*King of Somatic Safety*

*Protector of Children*

*Warrioress of Reclamation*

*Pioneer of Corporate Ascension*

*Father of Alternative Medicine*

*Princess of Light-working Beauty*

Take some time and get creative.

*ie. Queen of Dance, Music and Celebration (OMG! That's exactly Muse! ;)*

....Lord of the Arts, Aficionado of Beauty, Star of Awakening, Master of Daddy Day Care, Countess of Night-Time Baccarat, etc. (*“Did Rion really have Mer-man as one of the divine masculine archetypes above?!”*)

*\*Write here freely...*

*(even use crayons for coloring a doodle)*

\*Now, maybe add some of the elements + Light and Dark here:

*Ie. Light Aether Princess of Dark, Immortal Beauty*

*Dark Metal Lord of Eroticism, etc.*

(YES, they can be paradoxical in the entire codex; this is part of the intricate beauty of YOU)

We're looking at different constellations or configurations which incite you.

Optionally; you can also bring in the longer 3 archetype signature combinations to then add soul-value areas and start bringing gift and siddhic elements in ie.

*(Dark Eros Artful Soul Warrior Aether Light-King of The Arts & Humanities  
Light Empress of Alternative Medicine & Healing  
Cosmic Princess of Committed Timeless Light Beauty & Anti-aging  
etc.)*

Reference your previously numbered top 3-5 archetypes above as well as the elements and some of your soul values. You can start bringing in gift or siddhic qualities as well if they're wanting to burst through. Now you're developing more of the clusters which might be key components of making your long-string and short-form codex itself.

\*Write new development mixed cluster groups of codes below...

Not everything may 'line up' so to speak; yet, we're being creative here to see what your soma responds to from the overall palette of codes like Bob Ross's color-codes kinda like he'll blend together in his painting videos.

*Just for a happy little study break, I'll even [link to a relaxing Bob Ross video here](#)*

*(OK NOW, you owe me.)*

:b

You'll want to discern what you find yourself reacting to. \*Write or circle some more favorites.

The concept here is to expand just a little more so you can more contemplative room to zero in the soul star/starlet signatures that are most encoded for you.

Ideally, we want to find your primary archetypal signatures and in what order feels right, what balance of Light and Dark, a few of your siddhic signatures and optionally what elements and gift codes (if any); as well as soul value areas are core to you. Ultimately you can have a 'long-string' Star/let Codex but then narrow it down to something more practical, core and usable with just a few qualities.

Now;

\*Re-list your top 5 favorite archetype combinations here with just archetypes.

*(ie. 'Prince-Lover Magician' or 'Mermaid Huntress Healer')*

- 1.
- 2.
- 3.
- 4.
- 5.

\*Now take time to write out some of the archetype signatures + some of your circled/favorite SIDDHIC qualities spruced in different spaces ie. and maybe a Dark or Light here or there...

*Ie. Bounteous Light Prince of Valor, Majestic Lover*

*Dark Devotional Princess of Veneration*

*Peaceful Warrior, Dark-Knight Tender Father*

*Illuminated Eros-Lover of Grace, etc.*

\*Maybe start doing some with siddhic adjectives throw in here and there

*(ie. Dark Queen-Muse of Insatiable Fathomless Love or 'Vexing Prince of  
Light Sorcery and Peaceful Unity)*

*(take more paper/note pad space of your own where necessary)*

I think you get the gist of it.

\*Write out even a few dozen combinations if you want and give yourself room to re-write adjustments off of the ones that you like.

*(writings)*

Maybe 'Invincible' or 'Boundless' fits in different places with different combinations. You may have to adjust some of the words to fit but retain their transmission Truth ie. Veneration to Venerable, etc.

For me an example (referring to my Beloved and a Sarlet codex of Her incarnation would be;

*Illuminated Muse-Beauty Starlet Tender Lover Light-Eros Venerable Queen*

***(BREATH TAKING for me; this is HIGHLY activating)***

Remember, there is authentic TRUTH and SPIRIT POWER behind these CODES.

See where we're going with this? Getting the archetypal codex comps and then your primary cluster or arch sequence down is generally the MOST important and then sprucing (?) in the most illuminating other codes for you until you reach BREATH-TAKING even body-shaking levels of TRUE SELF RESONANCE!

Want to take it a bit further? *(And please give yourself room to have a LONG-STRING of your qualities...it may not be just 3 total descriptors, you might have up to 2 dozen qualities that REALLY pinpoints a most accurate version of yourself in DETAIL)...*now bring in some of your soul value areas and fit them into the mix ie;

*'Illuminating Fun Muse-Beauty Starlet Tender Lover Light-Eros Venerable  
Sexiness Queen of Music, Dance, Pop Culture & Celebration'*

...archetypally, that core Codex would be Muse-Starlet Eros-Queen, but see how we've pin-pointed her specific signatures even more?

The long-string version you can fully develop might be just for you and then you can have a shorter 'debut' codex that you take into your work (and even a translated version of it like how I am THE Muse Magician - where I put MUSE as both archetype and core soul value at the front to more accurately paint my Magicianship - but I use 'The Beauty Sorcerer' as a more public version of it; which ironically works because although Sorcerer is LESS mainstream, BEAUTY is VERY mainstream so it still helps to differentiate me uniquely).

You should be finding your own perplexing synergies with otherwise contradictory codes but that which really describes YOU!

And you can bring in elements from before if you want to add them in as well.

*ie. Earthen Warrior King Protector of Children and Sorcerer of Alternative  
Liberative Medicine & Peaceful Healing for example. YES, these can be  
wordy but most important is getting the sequence that hyper activates and  
represents you.*

Then it's just a process of comping and contemplating through all of your favorites that incite you the most until you come up with a combination that hits the sweet spot to your very soul-core. Yes, you should be getting emotional or the shivers (not shingles), if you're doing this properly.

So, you can end up with a very long codex with many individual codes and work the order around so that everything is in it's proper order of precedence with archetypes, gift-siddhic qualities, elements, Light/Dark and soul-value areas but I would still narrow down the sequence of His top 5 archetypes (maximum) as well as His top 5 siddhic qualities and at least put them through some additional comping until you feel which are the Top 3 and then narrow it down to 'the One'.

OK...that gives you a LOT to work with on your own to really help narrow in on the **SIGNATURE codex of your true Star/let form and identity** in all dimensions.

These are the codes that are most erotically, sexually, spiritually, psychologically, soulfully, emotionally and SOCIALLY ACTIVATING to ALL of you in ALL dimensions and TIMELINES for your PUBLIC, divine image, presence and service. The constellation of your avatar ICONIC self...the celebrity, movie-star version of you (but as a spiritual influencer).

IF you have found that, WOW, I HAVE FOUND MY TRUE STAR/STARLET SELF...then..congratulations! It might have taken you years (or never) to get this level of signature clarity about YOURSELF. Extended work; but you may also want to get more specific clarity around your SOUL TRIBE as well and cross-relate with your in-development codexing.

How would THEY want to see (and see) you? How would the LEADERS of your industry or market now see and relate to you? **Can you feel THIS version of yourself finally being WORTHY?**

For me it's simple; the CORE soul tribe is the Muse collective which is ALL forms of muses; Muse-Starlet, Muse-Dancer, Muse-Priestess and so forth....my MAINSTREAM brand of Sexy Chi with Star Codexed post-debut Rion Kati is the 'Beauty tribe' of beauty influencers, celebrities, conscious awakening women who value beauty, etc.

I can likely also help you get clarity on YOUR tribe as well if we did consulting together...so with your Star/let self you want to be TRUE to your self but also in a GOOD thirst-trappy kinda way be desirable in all dimensions for your soul tribe to recognize, relate to and want to be around the nurturing radiance of your gifts (from your sovereignty and service).

You want your Star/let to interface with the public in a friendly way and be attuned to your Human Design profile (where 4's are more social circle friendly and warm to insiders, etc.)

CLARITY is a big piece of this identity level transformation and makeover. There's a lot more that you could do from here including embodiment and charisma work FOR the actual makeover itself to your debut.

You may have to heal some more Father wounds as Daughter along the path to full-on Grail Lover b/c your Beloved is your LOVER in Divine Union.

We may have to clear up more temple space IN your body because it's holding onto too many shadows and stangy, mildewy cobwebs from your past that are constricting chakric space to embody the divine codes. We can work on YOUR ENTIRE MAKEOVER itself with the AvaStar Makeover and ongoing monthly power growth maintenance btw.

Ok..I would then ask you now to start narrowing things down. Maybe do a fresh review of what you've compiled so far.

Here are all of the fundamental elements or 'codes' of your STAR/LET CODEX we've been working with:

I know you've done some development up above, but why not pull down some of your favorite, preferred individual components down here in a more refreshed format. *(Is it normal for everyone to have to re-jerry-rig guestimate the formatting in outputting Word to PDF with 40 different manual renders to have it format visually back to what you originally wrote in Word itself and then have it all jacked up in Word or is it just me?) I apologize for formatting imperfections; Word is really messing with me.*

\*Now write your top 5 codes of each.

**Archetypal:**

- 1.
- 2.
- 3.
- 4.
- 5.

**Archetypal (+ Light/Dark ratios)**

*Please forgive formatting imperfections in this workbook, it was already a lot to pull this together this far and see my note about Microsoft Word's MASSIVE export to PDF formatting output fuckery.*

Basically; this is space to now bring down some of the working in-development *beta* codexes from above or to reference you above list and kind of start from scratch again and then maybe pull down some previous work from above.

Basically now, just work on a bunch of the long-string codexes freely and circle or highlight combinations that seem to work together (*ie. Light Vixen, Queen of Perseverant Awakening, etc.*)

With that said; make a new list of your top overall long-string combinations (probably on a fresh piece of paper) of the above qualities and then narrow it down to your top 5; circle or number them. (Again; you can choose additional notepad or writing offline).

\*Contemplate these in meditation and give them space to come back and work (maybe put on some supportive music like Taylor SW-...of whatever fits the mood) until you narrow down to the top 3 long-string codexii (pre-final drafting here).

- 1.
- 2.
- 3.

Hans Zimmer, Enya and general temple space music works great for me, but you also might want that Taylor Swift just to shake it off from all the 'work-work' of it too.

You may have to adjust the placement of different codes here and there until the order and balance feels JUST RIGHT. You can remove elements if they're redundant (watery Mermaid), etc. or rediscover a new divine adjective that emplaces in perfectly.

Be open to a process of refinement. Consider it an open work in progress until you come up with your finals.

It may take around 5 hours overall more or less to get your final long-string and short-form Star/let Codex...4-5 hours was the average it took [Grail Kundalini clients](#) to come up with their Beloved's codex spread out over days or weeks (but is a highly invaluable, worthy process then saving them YEARS of ambiguity).

For contemplation:

***What MUST be in your Star/let Codex if the world was going to see you 'on stage' in your power, passion and service?***

What are you ok with removing for your long-string? Again; it's ok if it's a ridiculously long-string form that otherwise doesn't make sense...the short-form will narrow it down.

FROM your eventual #1 long-string Star/let codex, you'll want to narrow it down to a more simplified 'core' version of ideally not more than 5 or 6 codes (which would be most likely filled of archetypes) ie;

*Graceful Prince of Holistic Medicine Alchemy*

*Bombastic Starlet-Dancer of Unbridled Erotic Liberation*

*Intoxicating Dakini of Erotic Sexual Reclamation*

*Majestic Kingmaking Light Priestess of Innocence*

*Grail Lover-Princess of Devotional Ascension*

This should feel that it represents 80% of the CORE Star version of you. But it might not be mostly 1-3 archetypes. You might want to have one that is more descriptive centered around 1 archetype and some gift + divine adjectives ie.;

*Passionate, Understanding, Committed Princely Knight of Awakening*

Just explore and so narrow it down to just more of a 'core' Star/let codex that most represents YOU but in the shortest possible way that is still in full alignment - and then you can still have your more detailed long-string codex as well (which is open to refinement; also as your values may shift in the future).

Then you've GOT IT! Well...you MIGHT have it - or at least over half of the way to have fun burning down the old castle and rebirthing a new one.

Ideally; we want you to have a long-string and a shorter form Star/let codex for your MAIN-stream or soul tribe authentic star persona.

**\*Write out your top 3 long-string Star Codexes here:**

1.

2.

3.

**\*And your top 3 favorite, soul resonant short-form Star Codexes** here that really in encapsulates MOST of your avatar star/let self whittled down like in Geppetto's workshop:

1.

2.

3.

You want to just keep contemplating and sitting with things; revisiting with your aperitif of choice and adjusting the order until you are fully confident that you've arrived at your final composition as the codex itself!

This might even take across a few months or simply a few hours of fireside crackling coziness.

Remember; [you can always just hire me to LOCK IN the entire process](#) and your makeover itself TO debut/rebirth because then we can move forward with things and you have more reasoning too.

This can be great if you're VERY serious and want to treat it more than just a hobby.

***Once you feel you have your final debut-ready Star or Starlet Codex;*** you can optionally share it privately with me if you're so inspired OR you want or give me a testimonial I can share about this process. I won't share your individual codex associated to your name publicly without explicit permission.

Now; remember, I have a track record of 100% clarity on helping people with their BELOVED'S codex (in a very similar format), AND I plan on continuing the streak so if you REALLY want to confirm things with me, I

can guide you more privately as part of the [AvaStar makeover process](#) itself.

*Then, for sure we'll have it (AND you get DIRECT activation and embodiment as well as strengthening of all of the codes even if you're already strong in some, you're on a BIG dharma so it requires even more self-sacrifice to hold the greatness of what's in store for you and live at that level so we've got some work 2do).*

From THIS clearer-er understanding of your avatar self and how public-friendly it is (which shouldn't have been a belly of the beast process for you but maybe it was);

THEN you can go into more [direct EMBODIMENT and allure transformational makeover work](#) to BECOME that version of yourself as well as adjust your visuals and marketing transmissions, etc. to be most powerfully aligned to YOU. That may include some big sacrificing, releasing and rebirthing AT an identity level (the most powerful level of transformation and transfiguration).

*So...*

*WAS there an archetype that you have less embodied that holds a big key to 'BEING SEEN' on that larger scale? For me it's literally Rockstar which will transmute into more general Star later. There was more of a gap, so I have to do specialized embodiment work to BE that (for my people)...and*

it includes sub-archetype work like authentic OUTLAW trials and shit like that (Dark Eros, Dark and Divine Authority led; not shadowy).

You should already have a lot of the core qualities of your codex accessible to an extent; but now it's about getting ALL of it activated and embodied in a temple body soma that can handle more POWER and BEAUTY to IMPACT more people from your field literally like a Star. This is also where [kundalini and dan tien activations](#) come in to strengthen your core itself and create shakti level allure and felt influence.

You'll want to be doing archetype attunement (alchemy) or **archetype activation work** to EMBODY and LIVE these codes from here AND get out there BEING SEEN and felt in your influence.

The ULTIMATE next step (*oh Cinnabon Star-Master Supreme of Delectable Ecstasy*); I would say would be to simply get the direct ongoing support in the [AvaStar Makeover program itself](#) which *includes* consulting + heavy archetype, gift, siddhic activation embodiment work FOR charisma and felt influence.

Remember; your codex can shift for slightly different character roles or audiences you have, but you should have a MAINSTREAM or soul tribe friendly one that is your FULLEST power, beauty truth and representation of your core. One that you can be fully embodied and expressed in where people can FEEL the charismatic spirit-quanta emanating as Truth from your temple body and image itself. (This is the work I specialize in and yes I have many celeb and archetype readings on the blog).

For now; this workbook is a gift to my circle; however, I may remove it from semi-public availability to only include it in the paid AvaStar program b/c I know the Star/let Codex discovery itself is worth at least \$1000 paid. This is premium branding work. If you have it now, you have it though shamelessly, it's all yours like purple on rice.

KNOWING the 'brand' of you on an attuned soul level that INSPIRES you to be out there and serve confidently can do miracles for your marketing and organic influence. (What a holiday gift if you're getting this 'on release' eh Countess Chocula of Fantasmic Wonder?)

\*Write your FINAL, active Short-Form Star or Starlet Codex Here:

## **WRAP-UP**

Now...just a few after-burner questions.

If you've already done a lot of spiritual work, do you FEEL that you are CLOSE or CLOSER NOW to your real debut (or re-debut) by being EMBODIED in these specific codes of your Power and Beauty?

Has this helped you get more clarity?

*(contemplative spaciness)*

\*On a scale of 1-10 with 10 being worthy in all dimensions with NO resistance; How worthy do you feel of this Star/let version of yourself right now?

*(Circle) And you can also add decimal points like 6.2*

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

\*How important is embodying your Star/Starlet to you and living as him/her out in the world publicly?

\*And furthermore; What would you or wouldn't you do to BECOME and embody Him/Her?

\*What would you rate this WORKBOOK (if you did the work 😊)? On a 1-10 scale?

10. / Yes

Now; are you going to make decisions FROM your avatar self and adjust your visual, written and spoken communications? Why not come up with a DEBUT plan to go along with your makeover and debut date? (I can help you with that).

Well, anyways....you made it! So; Congratulations Student-Magi Writer of Discover-Wonderment for going through this Star Codex workbook!

You should have both a solid long-string codex and a short-form Star/let avatar self identity codex that you FEEL AMAZING ABOUT. The version of you that INSPIRES YOU and is SOURCED in your TRUTH and divine service and recognition with others. One that is uniquely, yours and in YOUR POWER and rich, overfloweth alignment.

You may NOT want to actually share your literal Star/Starlet codex ITSELF with others or those who aren't qualified to hear or feel that detailed version of you in this format; however, what you SHOULD DO is

just start embodying, living and BEING HIM or HER with those exact codes in your divine public presence and service socially.

Again; archetypes hold a LOT of power...just think of what it would mean to be a Muse Priestess for example. JUST 2 CODES and yet INFINITE power within them. And that could be ONE of someone's roles.

So now...let's watch as your INFLUENCE organically increases magically! Watch as your soul tribe clients are DRAWN TO YOU while your social media influence expands.

Getting clarity is a big part of the 'brand' of you as your form of Star/influencer (whether you become 'famous' or not); but what do you do from here?

**Are you ready to EMBODY those exact codes so that people FEEL YOU in all the ways as the soul transmitting 'BRAND' of you?**

This is a transformational process from here...and really, specifically a MAKEOVER process from where you are now to where you desire to be AT DEBUT where people are like 'OMG, He/She is finally HERE!' (People have literally said that about me).

Your soul tribe and followers are WAITING for THAT version of you and the magic you bring in embodied and EXPRESSED charismatic, alluring leadership and multi-dimensional visual influence and communication.

**WILL YOU BE THAT VERSION OF YOURSELF** *that is all pulled TOGETHER and unified?*

So; if you are PROFESSIONALLY serious about your STAR/let MAKEOVER itself into your ICON, then I recommend to just privately [join me in the AvaStar Makeover and on-going monthly experience itself](#).

If you join on the monthly, the first 6 months are the makeover process and then on-going power support; you can unsubscribe at anytime. OR you can sign up for JUST the makeover portion...all the details are on-site with this brand new service offering here:

### [> The AvaStar Makeover + Star Support](#)

There are many more details there..the AvaStar Makeover itself gets you 100% clarity with our consulting time as well as DIRECT essence activation, embodiment and professional charisma/allure makeover support with healing and strengthening your temple light body/soma to hold far more power/beauty codes.

Find out more there (*you may want to just join the experience WHILE you start working on the workbook to lock in your makeover itself*). I hope to help you debut as your AVATAR STAR SELF within 6 months or less!
